PSD's District Accountability Committee (DAC) made up of parent and school representatives who work together to offer recommendations about the district's improvement plans, spending priorities, educator effectiveness student outcome measures, and charter schools to the PSD Board of Education. Increase the level of parent engagement in the district.

PSD has evidence of persistent opportunity/achievement gaps for historically marginalized populations and graduation rates that are not commensurate with PSD's high level of student achievement.

Including community members in the planning and monitoring of leadership efforts will increase ownership, alignment, and effectiveness of priority improvement efforts systemwide

1. To develop and maintain ownership and alignment regarding PSD is optimizing student experiences and outcomes through evaluation, improvement planning and budget allocation
2. Ensure that voices representing a wide array of perspectives are elevated in PSD leadership conversations and resulting decisions.

1. Review school budget survey outcomes and provide input to PSD budget development process.
2. Increase trust and relationship with the DAC
